

## SCS ANNOUNCES NEW FULL-TIME EMPLOYEE BEGINNING IN AUGUST 2024

SCS is excited to announce the hiring of Dylan Fodor as a Junior Applications Developer on August 1, 2024..

After graduating from Moravian University with a Bachelor of Science degree in Computer Science in May of 2024, Fodor interned with SCS in June and July before accepting a full-time position with the company.

"Interning at SCS this summer was the best decision I've ever made for myself," according to Fodor. "I obtained so many valuable experiences and had the privilege to work alongside so many amazing people. There are not many places you can intern for in our field to get experience with both legacy applications and cutting-edge data visualization projects all under one roof."

Fodor continues, "When I was offered a position to stay with SCS permanently, I was overjoyed. Having the opportunity to call SCS my home and work alongside so many talented developers is more than I could've asked for when searching for a place to start my professional career. I am very excited for my future here!"
